### Our Story

The founders of Daughters & Sons have (collectively) been involved in wine making for several decades now, and focus on minimal intervention winemaking to showcase each variety & vintage to its fullest, not manufacturing the same product year in and year out.

“Daughters & Sons” was created to provide a legacy in the wine business, but with a style of wine that reflects what we like about wine. So, we make the wine in a style that we also consume:

**Simple wines made for family gatherings.**
